## SUMMARY

---

Frontend Developer with 3+ years building production React and Next.js applications for logistics, e-commerce, and SaaS clients. Shipped a TypeScript portal serving 10,000+ daily users, led teams of 3–6 engineers, and consistently improved Core Web Vitals, Search Engine Optimization (SEO), and accessibility scores. Strong in modern frontend architecture, performance optimization, design systems, and translating Figma designs into pixel-perfect, accessible interfaces.

## TECHNICAL SKILLS

---

**Languages & Frameworks:** TypeScript, JavaScript (ES6+), HTML5, CSS3, GraphQL, SQL, React, Next.js (App Router, SSR, ISR, RSC), Redux Toolkit, Zustand, React Query, React Hook Form, Node.js, Express, NestJS

**Styling & UI:** Tailwind CSS, Sass, Shadcn/UI, Radix UI, MUI, Chakra UI, Framer Motion, GSAP, Three.js, Storybook, Figma

**Backend, Data & DevOps:** MongoDB, PostgreSQL, Prisma, Supabase, REST APIs, GraphQL APIs, Git, GitHub Actions, Vercel, Docker, Webpack, Vite, Jest, Vitest, Lighthouse

**Practices:** Web Performance Optimization, Core Web Vitals, Web Accessibility (WCAG 2.1, a11y), Search Engine Optimization (SEO), Responsive Design, Agile/Scrum, Code Reviews, Mentorship

## PROFESSIONAL EXPERIENCE

---

**ABS Courier & Freight Systems** — Frontend Developer 08/2024 – Present | Cairo, Egypt

- Architected and shipped a logistics client portal in Next.js 15, TypeScript, and Tailwind CSS, serving 10,000+ daily users with real-time shipment tracking dashboards.
- Collaborated with a team of 3 frontend engineers using Agile/Scrum, cutting sprint delivery time by 25% through clearer ticket scoping and a structured pull-request review process.
- Improved Core Web Vitals (LCP, INP, CLS) by 40% via route-level code splitting, image optimization, and React Server Components, lifting Lighthouse performance scores from 62 to 94.
- Drove a 50% increase in organic traffic over 3 months by implementing technical SEO, structured data, and WCAG 2.1 AA accessibility fixes across the portal.
- Established a shared component library and code-review standards adopted team-wide, reducing post-release production bugs by 40%.

**Golden Hornet Software** — Head of Web Team 12/2022 – 11/2023 | Cairo, Egypt

- Led the web division of a software agency, delivering React and Next.js applications across 8+ parallel client projects with 90% client satisfaction.
- Mentored 6 developers via pair programming and structured code reviews, improving team velocity by 20% and shortening review cycles by half.
- Doubled organic user traffic across client sites by implementing technical SEO and accessibility improvements that ranked target keywords on Google's first page.
- Introduced Git workflow conventions and automated testing pipelines (Jest, GitHub Actions), reducing post-launch bug reports by 30%.

**Exception Designs** — Frontend Developer 01/2021 – 12/2022 | Cairo, Egypt

- Cut average page load time by 30% across 100+ landing pages using Webpack bundle analysis, code splitting, lazy loading, and modern image formats (WebP, AVIF).
- Built responsive, mobile-first e-commerce interfaces with React.js and Next.js, translating Figma designs into pixel-perfect, accessible components.
- Boosted team delivery efficiency by 12% through Agile Scrum adoption and tight cross-functional collaboration with designers, backend engineers, and QA.

## EDUCATION

---

**Bachelor of Science in Computer Science** 04/2020 – 06/2024

Obour Higher Institute for Management, Computers and Information Systems — Cairo, Egypt
